IE Med. Mediterranean Yearbook 2015

MAP A.2 | The Fragile States Index in the Mediterranean

The Fragile State Index is based on twelve indicators, covering a wide range of state failure elements. Aggregated data are scaled from 0-10 (the lower the score, the better) to obtain final scores for 12 social, economic and political/military indicators. The total score is the sum of the 12 indicators and is on a scale of 0-120.

Decade Trend 2006-2015 Fragile State Index

Calculated according to the difference between the total average of all the indicators in 2006 and 2015
