MAP A.10a | CO₂ Emissions in Mediterranean Countries

- More than 350,000
- From 250,000 to 350,000
- From 150,000 to 250,000
- From 75,000 to 150,000
- From 50,000 to 75,000
- From 10,000 to 25,000
- Data unavailable
- Less than 10,000

**CO₂ Emissions per Capita (t) (2000 & 2019)**

- More than 8.0
- From 8.0 to 7.0
- From 7.0 to 8.0
- From 6.0 to 7.0
- From 5.0 to 6.0
- From 4.0 to 5.0
- From 3.0 to 4.0
- From 2.0 to 3.0
- Data unavailable
- Less than 2.0

**CO₂ Emissions from Mediterranean Countries (kt)**

**Share of CO₂ Emissions from Mediterranean Countries over World CO₂ Emissions (%)**

- Mediterranean Countries
- North Mediterranean Countries
- South and East Mediterranean Countries

### MAP A.10b | CO₂ Emissions by Sector and Use of Renewables

#### CO₂ Emissions from Fuel Combustion by Sector, in 2019

Countries are depicted with pie charts showing CO₂ emissions by sector in 2019. Each chart highlights the share of emissions contributed by different sectors:

- **Electricity and heat production**
- **Other energy industry own use**
- **Manufacturing industries and construction**
- **Road transport**
- **Residential**
- **Commercial and public services**
- **Other**

#### Share of Modern Renewables in Total Final Energy Consumption

A map shows the share of modern renewables in total final energy consumption (in %) from 1990 to 2019, categorized into different usage sectors:

- **More than 40%**
- **From 30% to 40%**
- **From 20% to 30%**
- **From 15% to 20%**
- **From 10% to 15%**
- **From 2% to 10%**
- **Less than 2%**
