

From EU engagement to regional perceptions: five visual insights to better understand priorities for the future Euro-Mediterranean agenda.

As part of its continued effort to promote inclusive, evidence-based policymaking in the Euro-Mediterranean space, **EuroMeSCo** is pleased to release **five new infographics** based on the results of the **EuroMed Survey 2025**.

These visual tools highlight some of the most discussed dimensions of EU cooperation with its Southern Neighbourhood and are designed to make complex insights more accessible to a wide audience — from policymakers and analysts to civil society and the media.

💡 Each infographic draws from data collected through the **15th edition of the EuroMed Survey**, which engaged over 700 stakeholders across 24 countries, including experts, policymakers, civil society actors, and youth representatives.

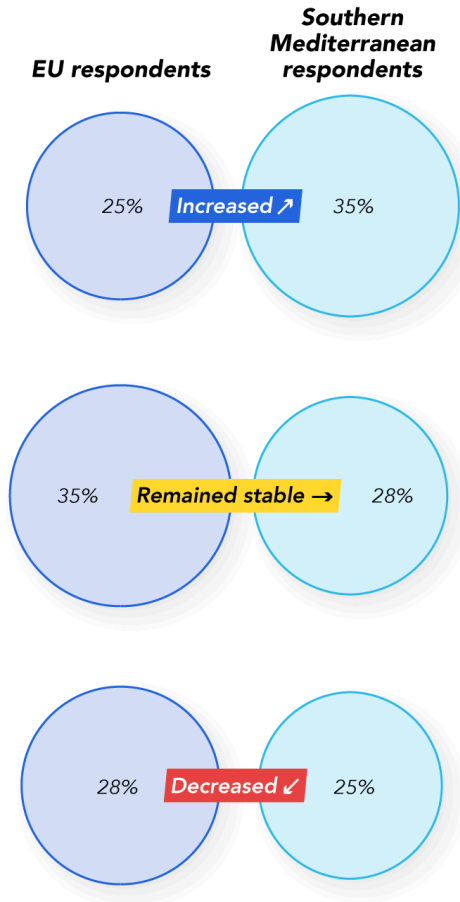

→ **How is the EU perceived as a regional actor, and what impact do its policies have?**
